

# AGREEMENT OF COOPERATION

BETWEEN

**THE URALS STATE TECHNICAL UNIVERSITY  
EKATERINBURG, RUSSIA**

AND

**THE FLORIDA STATE UNIVERSITY  
TALLAHASSEE, FLORIDA, USA**

The Urals State Technical University and The Institute for International Cooperative Environmental Research at The Florida State University agree upon the following principles for cooperation :

1. Both Institutions will promote the exchange of information about their educational programs, research activities and areas of potential mutual research cooperation.
2. Both Institutions will promote the exchange of research faculty and students.
3. Both Institutions will promote and seek to develop cooperative research projects within areas of mutual interest.
4. In the event that specific exchanges of faculty or students or cooperative research projects are identified, this general agreement will become the basis for specific agreements to be developed for these exchanges or research projects.
5. This agreement can be amended through mutually approved written correspondence or invalidated by either the Urals State Technical University or The Institute for International Cooperative Environmental Research of Florida State University.
