

## **Appendix 1.**

**Requirements for the design of electronic posters (e-poster).** The electronic poster should present the results of the research conducted by the author independently or as part of a scientific group. The poster must contain the following information: — - Name — - Full name of the author (s) — - Contacts (e-mail, phone) — - Name of the organization that the author represents The poster should be divided into the following semantic blocks:

- Introduction
- Materials and methods
- Results
- Conclusion

It is advisable to use graphs, charts, and other graphic and visual materials. Audio accompaniment should be provided by comments from the author of the poster content. The duration of audio accompaniment should not exceed 180 seconds. The electronic poster must be saved in the format of a single page presentation with the PPTX extension

An example of an e-poster

## Appendix 2.

**Requirements to theses design:** Theses suitable for publication should contain from 500 to 1000 words designed as a Microsoft Word document (file extension .doc or .rtf). Font: Times New Roman; font size: 14; fields: 2 cm; line spacing: 1.5; width alignment; paragraph indent: 1.25 cm; orientation: portrait. Bibliography: no more than five sources with the obligatory references in the text. The in-text citation (in-text reference) must be as the source number in the bibliography in square brackets (for example: [2]).

At the top of the first page is placed the title of theses typed in capital letters and centered. Beneath the title are typed in italics: the full name of the author, academic degree and academic title, position, full name of the organization and city of residence.

The statement of theses must comply with the standard structure: introduction (relevance and objects of research), materials and methods (sample study, used instruments), results, conclusion. Each structural element of theses begins with a new paragraph (totally four paragraphs).
